How was racing overall?

Racing was wet and wild. We saw very light and variable wind conditions that came from every direction at some point during the day. Current was also a very challenging factor throughout the day. The sailors were troopers through the cold rainy conditions. Even with the rain and the lack of wind, racing was still very entertaining! Conditions ranged from 0 knots to 10 knots. Races were challenging, and competitor attitudes were flawless. Overall, we managed to execute the regatta with minimal glitches, other than resetting the course numerous times. And for that I'd like to express my gratitude for all those who assisted in running the event. I'd like to give a Special Thanks to the Volunteers and Coaches that assisted me with Registration, Mark Set, Scoring and Race Management. SoCals would not exist without the support from the sailors, coaches, host yacht club, and most importantly the parent volunteers! Thanks for making it possible to run these phenomenal events! I look forward to seeing y'all at the SoCal #3, which will be hosted at BYC on January 14th, 2011.
